A Card Game That **Counts**. Improving Mental Calculation. Works For All Ages.

NUMERO® Professional Development

Teacher Professional Learning

Duration : 90 minutes
Cost : \$330*

Plan a **Numero®** professional learning session for a staff meeting or PD day. Staff will be taught the fundamentals of the game of **Numero®** and explore how **Numero®** benefits students and teachers in managing mathematics development in the classroom.

Benefits:

- All staff will understand the fundamentals of playing **Numero®**
- It enables the school to implement a **Numero®** program across all year levels.

Student Workshop Alternatives

Duration : 90 minutes
Cost : \$330*

Tailor a 90 minute **Numero®** workshop to suit your school's needs.

Benefits:

- Approximately 30 students learn how to play **Numero®**, or learn new skills and strategies if already familiar with the game.
- 1 or 2 staff members learn how to play and teach **Numero®**.
- The school has a start towards implementing **Numero®** into its mathematics program.

Parent Workshop

Duration : 90 minutes
Cost : \$330*

Plan a **Numero®** workshop for parents/guardians so they can learn how to play the game and assist their children at home.

Benefits:

- It informs parents of concepts taught in the classroom.
- It involves parents in their children's learning.
- It provides a fun family activity, reinforcing skills taught in the classroom.

BONUS: For every full-day plan booked, a free staff or parent PD can be claimed on the same day. Plan ahead and make the most of your **Numero®** visit.

Half-day plan

Duration : 3 hours
Cost : \$660*

Tailor a half-day **Numero®** program to suit your school's needs.

Benefits:

- Approximately 60 students learn how to play **Numero®**, or learn new skills and strategies if already familiar with the game.
- Approximately four staff members learn how to play and teach **Numero®**
- The school has the skills and knowledge to implement **Numero®** as an integral part of its mathematics program.

Numero® is more than just a card game. It is an invaluable resource for maths educators. **Numero®** has been designed for use by students of all ages, and assists in developing understanding of numeracy concepts and problem-solving skills.

A focused **Numero®** program can significantly boost children's mental maths abilities, help improve achievement in mental computation testing, and encourage tactical thinking and thinking 'outside the box'.

Full-day plan

Duration : 6 hours
Cost : \$935*

Tailor a full-day **Numero®** program to suit your school's needs.

Benefits:

- Approximately 90 students learn how to play **Numero®**, or learn new skills and strategies if already familiar with the game.
- Approximately six staff members learn how to play and teach **Numero®**
- The school has the skills and knowledge to implement **Numero®** as an integral part of its mathematics program.
